

# Our Garden Patch!

Today (22/03/10) in the Kindy room we got to plant seedlings in new our planter boxes.

We planted lots of delicious vegetables. Lettuce, pea, broccoli, and tomatoes and fruit strawberries and herbs rosemary, chamomile flowering lawn, garlic chives, basil, mint, parsley and colander.

Kallie helped us with the digging of the holes and taking the seedlings out of the pots. We had to handle the seedlings very carefully as we placed them into the ground so we

didn't damage them. Once we placed them into the ground we filled the rest of the hole with soil and then gently patted the soil down.

When we finished planting all the seedlings we gave them a big drink of water so they can grow big and strong. Over the next few months we need to look after the seedlings so that they will grow to full maturity.

When they are nice and big we are hopefully going to try eating our fruits, vegetables and cook with our herbs.
