

We now have two computers in the Kindy Room, to give the children the opportunity to learn how computers work.

There are a number of exciting activities that we can do on the computers.

One of our favourite activities is our games that are on the computers. We have some great educational and fun games that we can play one-on-one or in a group. We have a Cat in the Hat game, a Hey Arthur game and a number of other Dr Seuss games. These games give the children an opportunity to use their thinking and problem solving skills and as well as using their hand eye co-ordination with the mouse on the screen.

With one-on-one help with the carers we are also doing a lot of alphabet work. We are practicing identifying the letters on the keyboards and pressing the buttons so they appear on the screen. We are also practicing to type our names, type the names of our brothers and sisters and also learning how to spell mum and dad.

We are going to have a lot of fun with the new computers and learn a great deal.
