

TODDLER NEWS

As you have all seen, we have a new yard! We are all loving the new play area. The toddlers now have so much space to play in without worrying about bumping into anything. We also now have a sandpit which is such a great sensory experience for the children. The staff have had lots of fun setting up experiences for the children. Some of the things that we have placed out for them have been giant foam blocks, soccer goals, balancing beam obstacle courses, water play, shaving cream play, dinosaurs, picnics and much, much more! Having so much space there is room for the children to move properly with push along toys and bikes. We have also been using the platypus as a nice “meeting” area for the children. As of yet our platypus is un-named. Perhaps your child could think of one?

Important Reminder - Please ensure that no food from home is hiding in your child's bag. It can be a matter of life or death for other children with allergies..

Your Toddler staff, Hazel, Mia, Amanda, and Courtney.
